4. Non-Resident Total Cost, 1981-85 21

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental School Tuition**, is to provide information regarding the tuitions and fees for the sixty dental educational institutions located in the United States and Puerto Rico. Specifically, the information being reported in this supplement includes resident and non-resident tuitions, general fees, and other fixed costs associated with instruments. textbooks, and health services. The information in this report was obtained from the 1985-86 Survey of Predoctoral Dental Educational Institutions, American Dental Association.

Table 1 of the present report provides a yearly summary of the resident and non-resident tuitions associated with each of the sixty dental schools. As shown, the dental school tuitions, for each year, for residents range from a maximum of $21,400 at the University of the Pacific to a minimum of no tuition at both the University of California, San Francisco and the University of California, Los Angeles.* It should be noted, however, that the University of the Pacific has a three-year program. As such, the total undergraduate tuition for this institution is less than for a number of other four-year programs with lower yearly tuitions. It also should be noted that Harvard University has a five year program.

Table 2 provides a listing of first-year resident and non-resident tuitions rank ordered by the ratio of non-resident to resident tuitions. Tables 3, 4, 5, and 6 provide a listing of the undergraduate fees, and instrument, textbook, and health service costs for dental institutions for the four years of the undergraduate programs.

Tables 7 and 8 show resident, first-year costs rank-ordered by tuitions and fees. Table 7 shows a rank order for all institutions, and Table 8 shows rank orders for institutions grouped according to their status as public, private, or private-state related institutions. Tables 9 and 10 provide the same information; however, the institutions are rank ordered according to costs. Figures 1 and 2 depict the mean, total resident and non-resident first-year tuitions and fees for the years 1981 to 1985.

The remaining four tables provide lists of institutions and associated total undergraduate costs for residents and non-residents. These lists are rank ordered by total costs and by total costs within types of institutions. Figures 3 and 4 show mean, resident and non-resident total costs for the years 1981 to 1985.

An examination of the trends in total undergraduate costs for residents over the five year period beginning in 1981 and ending in 1985 shows a consistent yearly increase in median costs. On average, there has been a 9.8% yearly increase in costs over the five years, with an increase of 3.7% occurring between 1984 and 1985. The yearly median costs for the years 1981 through 1985 are $18,911.00, $21,197.00, $23,555.00, $26,453.50, and $27,422.00, respectively.

* See Table 2 for tuition plus mandatory fees.

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental School Admission Information**, is to provide information regarding admissions and the admissions policies of the 70 dental educational institutions* located in the United States, Puerto Rico, and Canada. Specifically, the information being reported in this supplement includes the number of applications received by dental schools, the academic qualifications of first-year students, the criteria employed in the admissions process, advanced placement for transfer students, first-year tuitions and annual related educational expenses, and combined degree programs in dental schools. The information in this report was obtained from the 1985-86 Survey of Predoctoral Dental Educational Institutions, American Dental Association.

Table 1 reports the total number of applications filed at each individual dental school for admission into the 1985-86 freshman class. The total number of applications filed at United States dental schools was 32,195. This is a decrease of 9.1% from the number reported last year (35,413). There were a total of 23,838 (74%) applications filed by males and 8,357 (26%) filed by females. The first-year enrollment also is reported in Table 1. There were 3,519 (73%) males and 1,324 (27%) females accepted in the 1985 freshman class. Therefore, the application/acceptance ratios for males and females were comparable.

Please note that each applicant applies to approximately five schools. This makes the number of applications received by the schools (as listed in Table 1) much greater than the number of individuals applying to dental schools. For the year 1985, there were 32,195 applications received by the schools, these applications were submitted by 6,216 students. The actual ratio between individual applicants and accepted first-year students is 1:3 to 1.

Table 2 reports the average Dental Admissions Test (DAT) results and grade point averages (GPA) for the 1985-86 freshman class. The mean DAT academic average was 4.41, with 13 schools reporting an average score of 5 or better. The mean DAT perceptual ability test score was 4.55 with 11 schools reporting an average score of 5 or better. Both the 1985 overall mean academic average and mean PAT scores decreased slightly fom last year's mean values. The mean academic average for 1984, first-year students was 4.47, and the mean PAT scores was 4.61. The mean predental science GPA for the 1985 entering freshman class was 2.86 while the mean predental non-science GPA was 3.19. Both the 1985 mean predental science GPA and mean predental non-science GPA decreased slightly from last year's mean values. The mean predental science GPA for the 1984 entering freshmen class was 2.92, while the mean predental non-science GPA was 3.25. Table 2 also includes the overall predental GPA for the 1985-86 freshman class.

Table 3 reports the DAT scores used in the admissions process for the 68 United States and Canadian dental schools for the 1985-86 academic year. An examination of the tabled entries indicates that all 58 dental schools in the United States employ the DAT academic average and perceptual ability test results in the admissions process.

Table 4 reports the predental grades used as admissions criteria by the same set of institutions. As shown, all 58 dental schools in the United States employ the predental science GPA in the admissions process. This table also indicates whether interviews, recommendations, and manual dexterity tests are used. Finally, the number of required years of predental education are reported. As shown for the 58 dental schools in the United States, 34 institutions require three years of predental education and 24 require two years.

Tables 5 and 6 show the relative rank of importance associated with the various criteria included in the admissions process for each of the 68 dental schools in the United States and Canada. The median values reported for the criteria indicate that DAT academic averages, DAT perceptual ability test scores, DAT science scores, as well as predental science and overall GPAs, are important criteria for most institutions. Admission interviews also are ranked as important at many institutions.

Table 7 shows possible advanced placements for transfer students. Columns 6 and 7 indicate whether the school grants credit for certain courses only or for an entire term.

Table 8 reports the first-year tuition and related educational costs for the 1985-86 academic year. Columns 2 and 3 indicate the resident and non-resident tuitions, column 4 indicates the amount charged for general fees for the first year, columns 5 to 8 indicate other educational costs for all four years. The average first-year resident tuition for all institutions in the United States is $7,085.00 while that for public institutions is $3,394.00, private institutions is $13,902.00, and private-state related is $10,725.00.

Table 9 reports the dental schools which offer combined degree programs. An examination of the table indicates that 21 dental schools offer a combined DDS-PhD program, 18 schools offer a combined DDS-MS program, 6 schools offer a combined DDS-MPH program, 4 schools offer a combined DDS-MD program, and 11 schools offer a combined Predental-Dental program.

---

* Emory and Oral Roberts Universities are discontinuing their dental education programs and are no longer accepting entering classes.

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental School Faculty**, is to provide current and detailed information on the characteristics of the faculties of the 60 dental educational institutions* located in the United States and Puerto Rico. The faculty information contained in this supplement is a summary of data obtained from the Survey of Dental Educators, American Association of Dental Schools. The support staff and enrollment information was obtained from the 1985-86 Survey of Predoctoral Dental Educational Institutions, American Dental Association.

The information in this supplement has been presented in a set of 15 tables. The first 14 tables have been formatted in one of two ways. One format lists all 60 institutions either in alphabetical order by state or in rank order according to a particular characteristic. The other format lists institutions in either of these orders, however, they are first grouped according to their status as a public, private, or private-state-related institution.

In addition, the full-time equivalents of faculty members have been reported in various tables according to academic discipline. These disciplines, however, have been grouped according to three broad areas, these are: basic science or biomedical, clinical, and behavioral (see Table 15). Full-time equivalents of those faculty whose primary responsibilities are administrative in nature are not included in the tabled values for these areas. Administrators have been excluded in an attempt to report undistorted student-faculty ratios for institutions, especially in the clinical sciences area.

Table 1 reports the full-time equivalents for administrators, basic science and clinical science faculties. Definitions of full time vary widely across institutions. For the purpose of this supplement, full time status is defined as a standard of ten half-days devoted to the institution. All full-time equivalents reported are based on this standard and include all faculty, regardless of their status as full-time or part-time faculty. Since the basic sciences are often taught by faculty other than the dental schools' faculties, the type of faculties presenting basic science instruction for the institution are indicated.

An analysis of the full-time equivalents of faculty at each dental school would be incomplete without comparing the full-time equivalents of the clinical sciences faculty members with student enrollment. The ratio of dental students to clinical faculty ranges from a low of 1.00 at Harvard University to a high of 7.66 at Case Western Reserve University, with a mean ratio of 4.19 students to one clinical sciences faculty member (Table 2). Table 3 reports the same ratios rank-ordered and classified by type of institution.

Table 4 shows the ratios of total student enrollment (undergraduate and advanced specialities enrollments) to the total full-time equivalents of the clinical sciences faculty. The mean ratio for all institutions is 4.63 students to one faculty member. The ratios range from 1.63 at Harvard University to 8.11 at Case Western Reserve University. Table 5 shows the same ratios, classified by the type of institution and rank-ordered.

Table 6 reports the full-time equivalents for dental school clinical sciences faculty by department. The numbers of minority dental school faculty members are shown in Tables 7, 8, and 9. Tables 7 and 8 report the numbers of minority members by ethnic categories in the basic science and clinical science areas, respectively. Table 9 shows the number of women faculty members and administrators in dental institutions. The faculties of basic science, clinical science, behavioral science, and auxiliary are included.

The full-time equivalents of support staff in the basic sciences and clinical sciences are shown in Tables 10 and 11, respectively. The full-time equivalents for clinical support staff was selected for further analysis in Tables 12 and 13. Table 12 provides rank-ordered ratios of support staff to faculty for all institutions. As shown, these ratios range from a low of 0.20 support staff to one clinical faculty member at Harvard University to a high of 2.76 at the University of Mississippi, with a mean of 1.17. Table 13 shows the same information rank-ordered by type of institution.

Table 14 reports the tenure status of the full-time clinical science faculty members at the 60 dental educational institutions. Table 15 shows lists of disciplines classified by department. This classification scheme was used throughout this supplement.

* Emory and Oral Roberts Universities are discontinuing their dental education programs and are no longer accepting entering classes.

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental Education Trend Analysis**, is to provide information regarding trends in dental school applications and enrollments. Specifically, the information reported in this supplement includes numbers of applications, first-year and total predoctoral enrollments, attrition rates, numbers of graduates, first-year tuitions and fees, and licensure results. The tables that comprise this supplement are self explanatory and readily interpretable. A number of trends may prove especially noteworthy, however.

The values in Table 2 show that the number of applications to dental schools has declined by 9.1% from 35,413 in 1984 to 32,195 in 1985. This is the tenth consecutive year that a decline has been reported. This trend in the number of applications to dental schools reflects a decline in the number of applicants. Specifically, the number of applicants to dental schools declined by 4.2% from 6,490 to 6,216. The application to applicant ratio was 5.5:1 in 1984 and 5.2:1 in 1985.

Table 3 indicates that first-year enrollment (FYE) declined by 4.0% from 5,047 in 1984 to 4,843 in 1985. Table 1 below displays ten-year trend data on the number of applications, number of applicants, first-year enrollment, and the ratio of applicants to first-year enrollment. Since 1976, due to the reduction of the applicant pool, the applicants to first-year enrollment ratio has decreased from 2.49 in 1976 to 1.28 in 1985.

TABLE 1

TRENDS IN THE NUMBERS OF APPLICATIONS, APPLICANTS, AND FIRST-YEAR ENROLLMENTS, 1976-1985

Year	Number of Applications	Number of Applicants	First-Year Enrollment	Ratio of Applicants/ First-Year Enrollment
1976	86,081	14,807	5,935	2.49
1977	81,765	12,837	5,954	2.16
1978	66,585	10,766	6,301	1.71
1979	58,715	10,000	6,132	1.63
1980	52,218	9,601	6,030	1.59
1981	46,894	8,852	5,855	1.51
1982	41,466	7,724	5,498	1.40
1983	38,004	7,128	5,274	1.35
1984	35,413	6,490	5,047	1.29
1985	32,195	6,216	4,843	1.28

Tables 10 through 15 contain data on enrollments and graduates related to minorities and women. Table 11 indicates that first-year enrollment of women in dental schools decreased 3.3% from 1,369 in 1984 to 1,324 in 1985. Table 13 indicates that there has been an increase of 5.7% in minority enrollment, from 1,045 in 1984 to 1,105 in 1985.

Table 18 contains licensure examination information for selected years from 1950 to 1984. The licensure results were obtained from the State Board of Dental Examiners, the Northeast Regional Board, the Central Regional Dental Testing Service, the Southern Regional Testing Association and the Western Regional Examining Board. Please note that because of the manner in which the data was collected and reported, those states participating in regional examinations have zero failure rates.

* - R = RESIDENT NR = NON-RESIDENT

+ - IN THIS REPORT THE 1981-82 FIGURE FOR COLORADO RESIDENTS ATTENDING U. OF COLORADO IS THE AMOUNT ACTUALLY PAID BY THE STUDENT AFTER TUITION REMISSION. IN ORDER TO ALLOW MEANINGFUL TREND ANALYSIS, FIGURES FOR THE PREVIOUS YEARS HAD ALSO BEEN ADJUSTED FOR REMISSION.

** - EMORY AND ORAL ROBERTS UNIVERSITIES ARE DISCONTINUING THEIR DENTAL EDUCATION PROGRAMS AND ARE NO LONGER ACCEPTING ENTERING CLASSES.

@ - UNIVERSITY OF THE PACIFIC HAS A THREE-YEAR PROGRAM

15. Current Fund Expenditures: Patient Care Services and Physical Plant Expenditures by Size and Type of Institution-Fiscal Year Ending June 30, 1985 29

16. Current Fund Expenditures: Other Educational Expenses by Size and Type of Institution-Fiscal Year Ending June 30, 1985 31

17. Current Fund Expenditures: Summary of Expenses by Size and Type of Institution-Fiscal Year Ending June 30, 1985 33

INTRODUCTION

Supplement #4: Financial Report/Fiscal Year Ending June 30, 1985 is a summary of the information contained in the nineteenth Survey of Predoctoral Dental Educational Institutions.* It constitutes a report of the financing of 59 U.S. dental schools. The contents of the survey represent the collective action of the Council on Dental Education of the American Dental Association and the American Association of Dental Schools.

Organization of the Report

Table 2, Summary of Revenues, provides a statement of income for all major sources of income identified in the survey.

Table 3, Summary of Expenditures, provides a statement of expense for those major expense categories separately identified in the survey.

Tables 4 to 17, Current Fund Revenues and Expenditures by Size and Control, provide more detailed data for selected categories of income and expense. Each display format includes the following data: 1) highest figure reported for the category; 2) lowest figure reported for the category; 3) mean for the category (average for all schools with non-zero entries in the category).

NOTE: Extreme differences between the high and low figures can reflect differences in accounting procedures among the institutions as well as real differences in income or expense.

TABLE 1

Fiscal Statistics For Fiscal Years 1982-83, 1983-84, and 1984-85

	FISCAL YEAR			PERCENT CHANGE	PERCENT OF REVENUES	
	1982-83	1983-84	1984-85	1983-84 to 1984-85	FYE 1984	FYE 1985
TOTAL CURRENT FUND REVENUES	$699,848,236	$735,193,230	$778,375,746	+ 5.9	---	---
STUDENT TUITION AND FEES	$164,990,088	$172,088,189	$179,620,776	+ 4.4	23.4	23.1
STATE AND LOCAL SUPPORT	$327,674,218	$340,682,297	$360,209,158	+ 5.7	46.3	46.3
FEDERAL SUPPORT	$ 64,901,835	$ 66,418,029	$ 76,086,103	+14.6	9.0	9.8
TOTAL CURRENT FUND EXPENDITURES	$715,418,385	$758,379,102	$809,707,499	+ 6.8	---	---

General Editing Policy

Extensive editing has been utilized in the preparation of the report in order that the data may validly serve the needs of dental education. Every attempt has been made to ensure that the data included in an income or expense category accurately fit the definition of the category.

The numbers included in parentheses -( ) indicate the numbers of schools in the associated categories.

* Emory and Oral Roberts Universities are discontinuing their dental education programs and are no longer accepting entering classes. However, financial information for Emory University is included.

Supplement1

Supplement 1
to the 85/86
Annual Report on
Dental Education

INTRODUCTION

The annual reports program of the Division of Educational Measurements is intended to provide the Council on Dental Education, the Commission on Dental Accreditation, the community of dental educators and practitioners, and other interested groups with information on various aspects of dental education. The purpose of the present supplement is to provide a list of the dental-school administrators to Council and Commission staff. This listing is organized according to institutions ordered alphabetically by state. The information contained in this supplement was obtained from the Annual Survey of Predoctoral Dental Educational Institutions, American Dental Association. Information on dental-school administrators is available for general distribution in the Directory of Dental Educators, American Association of Dental Schools.

Dental Student Attrition

I. INTRODUCTION

Annually, the Division of Educational Measurements gathers student attrition data from United States dental schools* by means of the **Survey of Predoctoral Dental Educational Institutions** as well as through withdrawal forms submitted for each of the students who withdraw from school. Students who repeat an academic year or who receive a definite leave of absence are not included in these data. Between 1973 and 1979, the attrition rate after one full year of dental education was approximately 3.56% (see Table 1). However, during the past five years the rate of attrition for the dental school freshmen has begun to climb, 4.30% in 1980-81, 4.95% in 1981-82, 5.57% in 1982-83, 6.77% in 1983-84, and 7.23% in 1984-85. During 1984-85, 172 sophomores (3.50% of the sophomore class) withdrew, while 63 withdrew from the junior class (1.29%) and 28 from the final year of dental education (0.52%). These 620 students amount to 3.08% of the total 1984-85 dental school enrollment.

TABLE 1

DENTAL SCHOOL FRESHMAN ATTRITION, 1973-74 to 1984-85

ACADEMIC YEAR	FIRST-YEAR ENROLLMENT	TOTAL FIRST-YEAR WITHDRAWALS Number	Percent
1973-74	5,455	193	3.54
1974-75	5,617	209	3.72
1975-76	5,763	200	3.47
1976-77	5,935	214	3.65
1977-78	5,954	200	3.36
1978-79	6,301	230	3.65
1979-80	6,132	216	3.52
1980-81	6,030	259	4.30
1981-82	5,855	290	4.95
1982-83	5,498	306	5.57
1983-84	5,274	357	6.77
1984-85	4,937*	357*	7.23

* First-Year enrollment and attrition for Emory and Oral Roberts Universities are not included.

Comparing the number of 1984-85 withdrawals with the number of students in their individual freshman classes permits a conclusion that an attrition rate of approximately 13% can be expected of a class of students for the four years of dental education. This four-year rate of attrition has increased from the 11% that would have been expected based on 1983-84 data.

First-year attrition occurred in private and private, state related schools with approximately the same frequency as in public schools. Private school first-year attrition accounted for 47% of 1984-85 freshman withdrawals. Private schools accounted for 46% of first-year enrollment during that same year. The majority of freshmen who withdrew did so voluntarily (55%). Less than one-half (34%) of all freshman withdrawals were in good academic standing when they withdrew.

* Emory and Oral Roberts Universities are discontinuing their dental education programs and are no longer accepting entering classes. Enrollment and attrition data for these programs are not included in this study.

II. PERSONAL REASONS FOR ATTRITION

Personal reasons for withdrawal have, in previous years, outnumbered academic reasons (Table 2), while a change of career objective was the most frequently reported personal reason for withdrawal from dental school (Table 3). For 1984-85, academic reasons became the most frequently reported. Most of the students who withdrew for personal reasons were in good academic standing and had no reported difficulty with coursework, but they withdrew to follow a career other than dentistry. During the 1984-85 year, 11 students left dental school explicitly to enter a medical school and 30 student left a particular dental school to transfer to another dental school. Eighteen of these 30 students were freshmen. Financial reasons were given for the withdrawal of 14 students, eight freshmen, five sophomores, and one junior.

TABLE 2

GENERAL REASONS FOR FRESHMAN ATTRITION, 1979-80 to 1984-85

GENERAL REASONS	1979-80	1980-81	1981-82	1982-83	1983-84	1984-85
Withdrawals for Personal Reasons	52.3%	65.3%	59.0%	53.9%	57.9%	46.8%
Withdrawals for Academic Reasons	47.7%	34.7%	41.0%	46.1%	42.1%	53.2%
Problems in Didactic Courses Only	27.3%	18.5%	24.5%	25.4%	21.7%	33.3%
Problems in Technic Courses Only	5.6%	7.3%	4.5%	3.0%	4.2%	4.2%
Problems in Didactic & Technic	14.8%	8.9%	12.1%	17.7%	16.2%	15.6%

TABLE 3

PERSONAL REASONS* FOR ATTRITION, 1984-85

PERSONAL REASONS	FRESHMEN	SOPHOMORE	JUNIOR	SENIOR	TOTAL
Change of Career Objective	63	26	7	1	97
Other General Reasons	29	20	7	4	60
Transfer to Other Dental School	18	8	4	0	30
Financial Problems	8	5	1	0	14
Family Problems	16	5	5	0	26

Enter Medical School	2	9	0	0	11
Emotional Problems	5	1	0	1	7
Disciplinary Suspension	2	1	0	0	3

* Reasons for withdrawal are sometimes not specified.

III. ACADEMIC REASONS FOR ATTRITION

In annual studies of dental freshman attrition, a comparison between the DAT scores of students withdrawing because of academic problems and the DAT scores of all freshman has been completed. Since 1975, when this analysis was initiated, the studies have indicated that the percentage of these students with below average DAT scores was significantly greater than the percentage of all freshmen with below average DAT scores. This year, again, there is a significant difference in the DAT scores of those who withdrew because of scholastic difficulty and the remaining freshmen. The mean DAT academic average of those withdrawing for personal reasons was 4.46 (somewhat lower than the mean for all freshmen, 4.52), while those withdrawing because of problems in academics have a significantly lower mean DAT academic average, 3.36. This difference is in evidence in the technic area also. The mean perceptual ability test scores for those withdrawing for personal reasons was 4.09, for those withdrawing because of problems in technic courses, 3.14; all freshmen, 4.66. Figures, 1, 2 and 3 graphically portray these differences. Freshman who withdraw because of problems in academic or technic coursework continue to have, on the average, significantly lower DAT scores than other first-year students.

IV. MINORITY ATTRITION

In 1984, women constituted 27.1% of the entering class in all United States dental schools and 23.8% of the entire dental enrollment. Women, however, made up 26.6% of the first year withdrawals and 27.3% of the withdrawals from all four years. As can be seen from Table 4, the attrition rate for women in dental school was slightly higher than for men in 1984-85.

TABLE 4

SEX DIFFERENCES: TOTAL ENROLLMENT ATTRITION BY SEX, 1984-85

SEX	Freshman		Sophomore		Junior		Senior		TOTAL	
	N	%*	N	%*	N	%*	N	%*	N	%*
Male	259	7.20	111	3.03	52	1.37	22	0.52	444	2.89
Female	95	7.08	58	4.67	10	0.92	6	0.53	169	3.51
Unknown	3		3		1				7	
Total Attrition	357		172		63		28		620	

* For males, percent of male enrollment; for females, percent of female enrollment.

An analysis of student attrition by ethnic minority categories indicates that Black students withdraw at a greater rate than other students. As Table 5 indicates, Black students account for a disproportionately large percentage of withdrawals as compared to their percentage of enrollment. A similar trend may be seen for Asian students.

FIGURE 1

DAT SCIENCE COMPOSITE SCORES vs. FRESHMAN ATTRITION, 1984-85

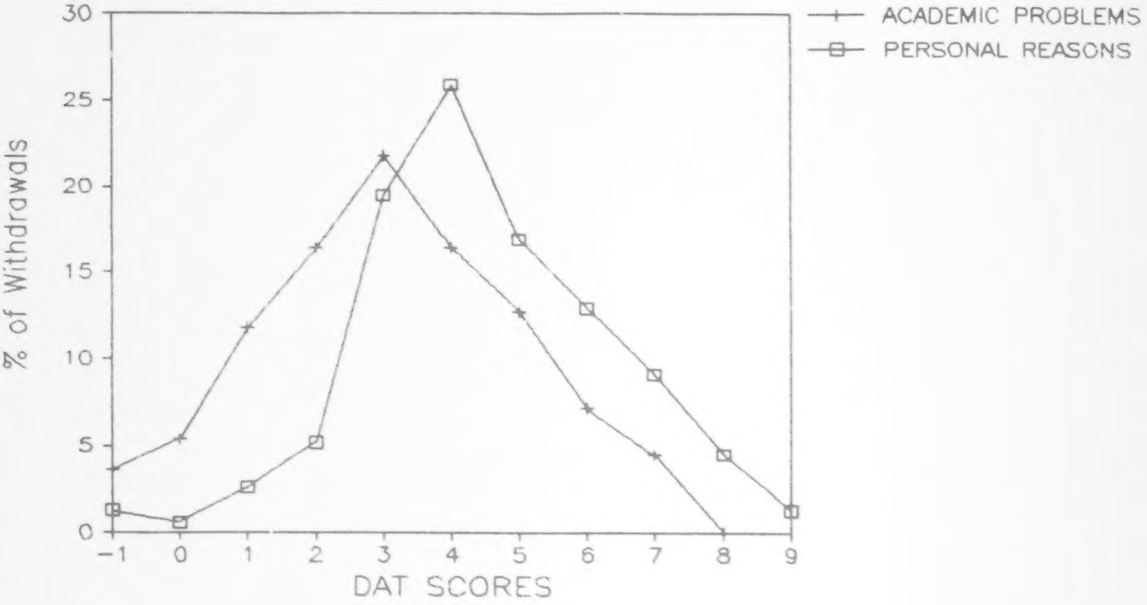

FIGURE 2

DAT ACADEMIC AVERAGES vs. FRESHMAN ATTRITION, 1984-85

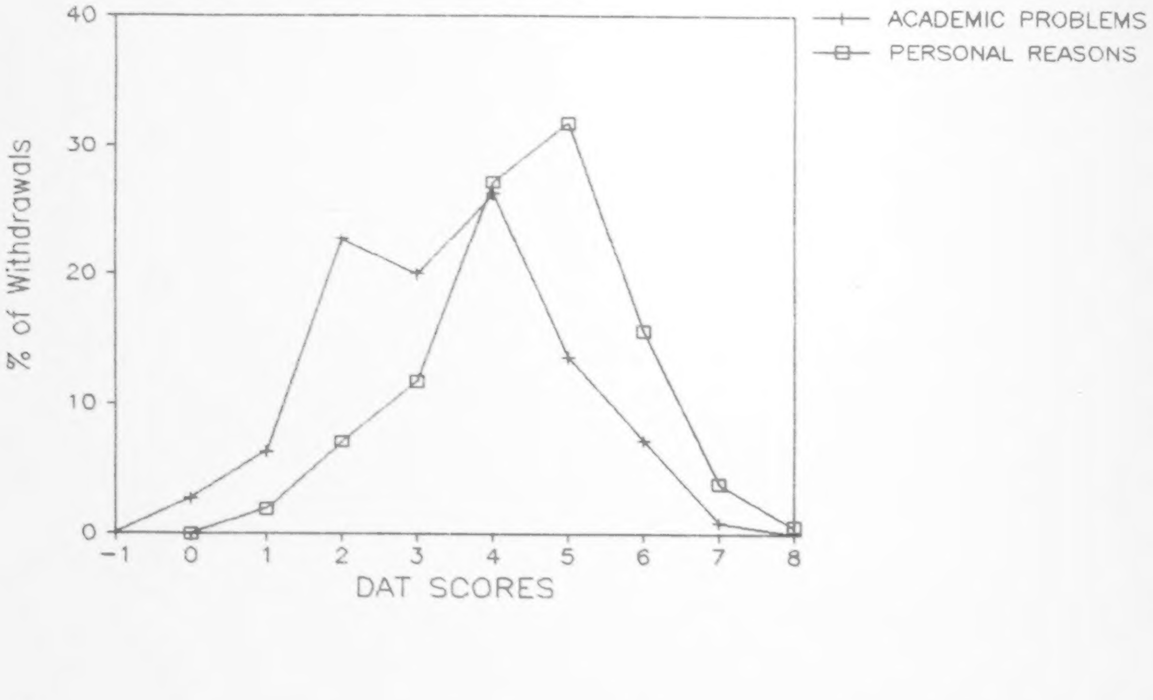

FIGURE 3

DAT PERCEPTUAL ABILITY SCORES vs. FRESHMAN ATTRITION, 1984–85

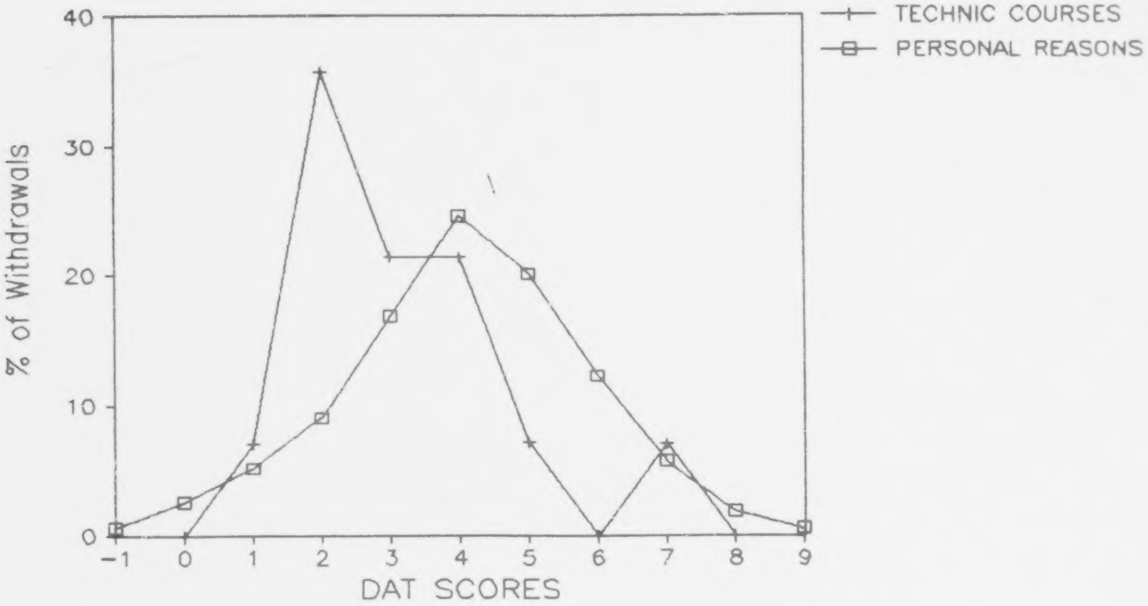

TABLE 5

FRESHMAN RACE/ETHNIC DIFFERENCES: ATTRITION BY RACE/ETHNICITY, 1984-85

Race	Number	Percent of Withdrawals	Total 1st Year Enrollment	Percent of Enrolled
American Indian	3	0.84	17	0.34
Asian or Pacific Islander	44	12.33	456	9.24
Black	55	15.41	296	6.00
Hispanic	16	4.48	255	5.17
White	235	65.83	3,913	79.26
Unknown	4	1.11		
Total	357			

Table 6 indicates that the greatest proportion of the 1984-85 freshman withdrawals of minority students were for scholastic reasons related to coursework. This is not the case for withdrawals of non-minority dental students

TABLE 6

FRESHMAN RACE/ETHNIC DIFFERENCES: GENERAL REASONS FOR ATTRITION BY RACE/ETHNICITY, 1984-85

Race	Total Number Withdrawn	Personal	Scholastic
American Indian	3	33%	67%
Asian or Pacific Islander	44	38%	62%
Black	55	26%	74%
Hispanic	16	43%	57%
White	235	53%	47%

V. CONCLUSION

In summary, the freshman attrition rate that had been consistently held to approximately three and one half percent during the 1970's increased to over seven percent in 1984-85. The national dental school entering class can be expected to experience approximately a 13% attrition rate by the time of graduation, if one takes the 1984-85 rate of attrition as a base. Unlike previous years, the students withdrawing for academic reasons outnumbered those withdrawing for personal reasons. Freshman withdrew from school more often because of academic problems in didactic courses than in technic courses, both areas of difficulty having a significant relationship to Dental Admission Test scores. Finally, the attrition rate for women was slightly higher than for men and was also higher for Black first-year students than for other freshmen.
